Limpopo DORS

Manufacturers of
Door Frontals &
Decorative Components for
Cupboards & Furniture

INTRODUCTION

Limpopo

is a truly South African company that customers and suppliers can depend on. The company focuses on the mass production of superior quality **Door Frontals for Kitchens, Built-in Cupboards and Furniture.** We maintain a philosophy of staying abreast with technological advances specifically when acquiring production equipment. This in turn allows us to offer a production facility capable of producing specialised components on mass production.

We assure you of our best efforts to meet your requirements for high quality products and services at all times.

- Fully wrapped doors are purpose made to the customer's specifications
- 19mm Designs only available in option seen below

Colour: Boston Oak

Design: 19mm Shaker Design: 19mm Traditional Shaker Design: 19mm Farmstyle Shaker Colour: Mengellan Vintage

Colour: Country Style

Design: 19mm Wedge Colour: Monument Oak

Below is an example of how a Stable door Design can be used.

The Stable door can have 2 equal size blocks called 1/2 Stable, or like below one Big Block and one small block that is in line with the drawers. The carpenter must then specify the size for the small block as there are no standard size.

OPEN FRAME & LATTICE

- Unless otherwise specified, all Open Frames & Lattice Doors will match the decoration of accompanying doors on a specific order.
- Open Frames can be recessed on the back side to accommodate a flush glass insert. Please specify recess depth
- NO glass supplied with Open Frames!

B: CURVED DOORS

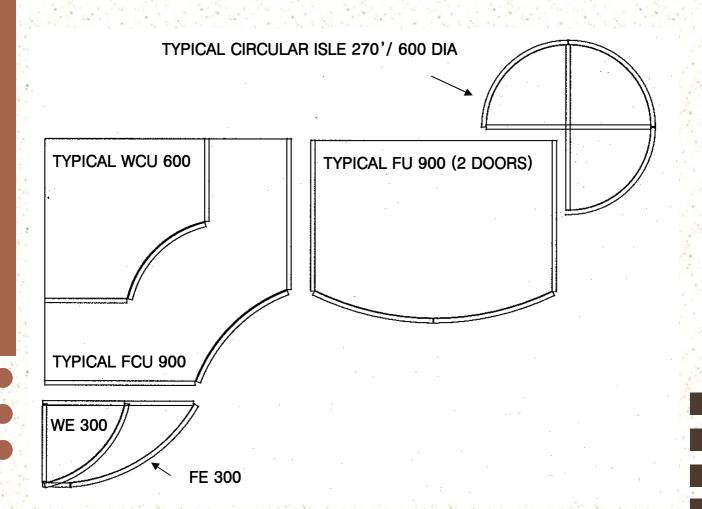

The demand for curved cupboard doors has hit the industry and we are more than ready to satisfy that need. We can make curved doors to match almost every cupboard known to the cupboard industry. Our range of curved doors include, but are not limited to the following:

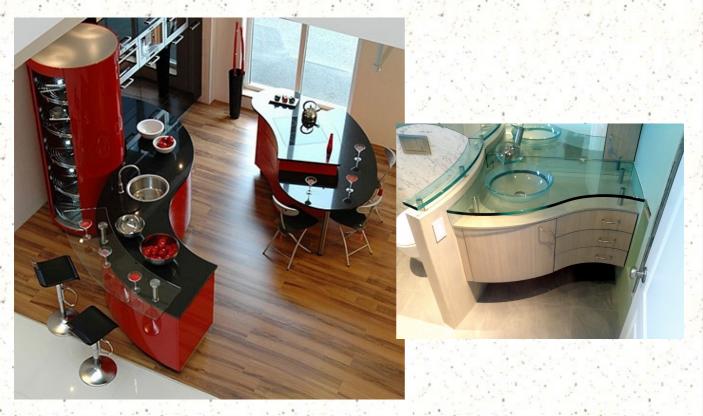

- Floor Units with Doors. (from 300mm wide to 1200mm wide. Max H=1100mm)
- Floor Units with Drawers. (from 450mm wide to 1200mm wide. Max H=450mm/drawer)
- Floor Corner Units Concave. (max H=1100mm)
- Tall Floor Corner Units Concave. (max H=2300mm)
- Wall Corner Units Concave. (max H=1100mm)
- Floor End Units
- Wall End Units
- Circular Isle Units. (diameter 600 / 800mm), 360deg or segmented
- Concave & Convex doors combined to from "Wave"

Please Note:

- When considering curved doors, please consult the office for exact specifications referring to height, width, depth & applicable radius. The most common mistake made by contractors is to cut the shelves to a random radius and hope Limpopo Doors have a matching mould. We recommend cutting the shelves to match the door instead. When the project does not allow this delay, rather bring the shelves to Limpopo Doors for cutting.
- Because of natural materials used during production, we cannot guarantee the fastness of radii quoted. However, the procedures we use ensure very good results.
- Most curved doors will be supplied without any design on the doors face.
- Please consult your hinge supplier for the most suitable hinge to use for a specific application.
